

# ZION CITY

RE: Guidance Regarding the COVID-19 Vaccine

At Zion City, we affirm that God created man with free will, and we support the rights of all people to determine their own health measures. We also encourage everyone to practice safe, healthful measures at home, in the workplace, and public spaces.

While we support everyone's right to decide whether or not to receive the COVID-19 vaccine, we disagree on mandating vaccination or making it a condition of employment, travel, participating in activities, etc. If people have concerns about vaccination for themselves or their child/children, we encourage them to talk with a doctor or healthcare professional they trust and get their opinion.

As with all medical decisions, we encourage everyone to consider the COVID-19 vaccine prayerfully.

Respectfully,

Zion City

We are a church registered with the Arizona State Commission Office.
